# RRCUSTOMS

**RRCustoms** - a company evolving in automotive branch for 20 years. At the beginning the company has been focused on service activity, especially in car detailing, car wrapping and custom cars construction. We've gained a lot of experience over the years. RRCustoms brand became recognizable in motoring community. The next steps of evolution was making of trade offer, then starting of our own production of car parts and accessories.

**Currently RRCustoms is leading producer of car cosmetics, polishing pads, wheel spacers and car window films.**

More than 90% of production takes place in our facilities in Kielce. New product recipes are developed in our own laboratory. We are proud of providing a premium class products in attractive prices.

Quality of RRCustoms products is result of our experience, professionalism and motoring passion. Currently we sell it to 30 countries but we are determined to expand the market and the offer.

Meeting the expectations of our demanding clients, we still improve our own recipes. We plan to build new production facilities to begin non-European markets expansion.

RRCUSTOMS

## ACTIVE FOAM

Highly concentrated product for safe pre-wash. The foam loosens and removes road grime from the surface facilitating subsequent contact washing. It is completely neutral, does not contain strong cleaning agents. It can be applied on ceramic and wax coatings.

### Available capacities:

1000ml, 5l, 25l

### Product characteristics:

- efficient in creating high foaming action
- loosens dirt and helps to remove surface contaminants
- safe for ceramic coatings, Quick Detailer and wax
- neutral pH
- safe for paintwork wax and sealants if used in accordance with manufacturer's recommendations
- contact washing is necessary after applying Active Foam

### Product characteristics:

- shampoo for regular wash and care
- efficient and highly foaming
- grape flavor
- safe for car paint, rims, seals, windows
- safe for wax and ceramic coatings
- formula prevents the formation of the so-called water spots (lime scale residue left by hard water)
- neutral pH
- safe for the applied surface if used in accordance with manufacturer's recommendations

RRCUSTOMS

## SHAMPOO

Highly efficient, neutral car shampoo. The high foaming formula guarantees high dirt removal efficiency. Streak and residue free. Safe for wax and ceramic coatings.

### Available capacities:

1000ml, 5l, 25l

RRCUSTOMS

## ACTIVE SHAMPOO

An acidic shampoo that offers a safe and easy way to deal with heavy dirt and grime. The shampoo contains additives that help to maintain hydrophobic qualities of ceramic and wax coatings. Also Active Shampoo's special formula slows down the process of evaporation so that you can enjoy and perfect the wash.

### Available capacities:

1000ml, 5l,

### Product characteristics:

- shampoo for heavily soiled cars
- efficient and high foaming
- maintains hydrophobic qualities of ceramic and wax coatings
- perfect for lime scale deposit removal
- an exotic scent of Madagascar
- safe for paint, rims, seals, window
- acidic pH
- safe for the surface if used in accordance with the manufacturer's recommendations

#### Product characteristics:

- efficient and easy to use. Recommended dilution from 1% to 10%.
- the product in proportions above 1:20 is safe for ceramic coatings and hard waxes
- depending on the degree of soiling, dilute the concentrate with warm water (approx. 1:10 with heavy soiling; 1:50 with light soiling, e.g. for flushing dust)

## TRAFFIC FILM REMOVER

A concentrate preparation for contactless application of dirt from a car body. Depending on the dilution ratio, it can be used as a prewash before using hand washing, to use a variety of dirt with construction machinery, but also to soften a few days of dust from the surface of the car.

**Available capacities:**  
1000ml, 5l, 25l

RACUSTOMS

## QUICK DETAILER+

Quick Detailer+ is a quick way to add gloss to dull paint job and surfaces including those covered with ceramic or wax coating. It creates a hydrophobic surface that effectively repels water and gives the effect of beading. Properly applied coating is maintained for several car washes.

**Available capacities:**  
1000ml, 5l

#### Product characteristics:

- designed to be used especially on vehicles with wax or ceramic coating.
- removes light scratches, swirls and other minor paint damage.
- adds extra gloss and brings out deep wet shine of paint finish
- creates a hydrophobic coating (repels water)
- can be applied to both dry and wet paint surfaces
- QD is also suitable as clay lubricant
- safe for the surface if used in accordance with the manufacturer's recommendations
- ready to use

#### Product characteristics:

- Dedicated to cleaning wheels.
- Gel formula slows down evaporation time so that the active ingredients can work longer on the surface
- pH neutral
- Ready to use
- Safe for all types of wheel finishes (painted, polished, chromed, anodized, powder coated, carbon fibre or vinyl film-wrapped)
- Non-contact application
- Safe for all intended surfaces when used in accordance with the manufacturer's recommendations

RACUSTOMS

## WHEEL GEL+

Wheel Gel+ is advanced formula dedicated to make cleaning wheels go fast and easily. Effectively removes ferrous contaminants, brake dust deposits and stubborn dirt from the surface of wheels. When the product begins to react with ferrous particles, it turns red and creates the "bleeding wheel" effect. Gel formula slows down evaporation time so that the active ingredients can work longer on the surface. pH neutral, safe for all types of wheel finishes

**Available capacities:**  
1000ml, 5l

RRCUSTOMS

## DELRONIZER

Delronizer removes metallic contaminants from paint and glass surfaces. The use of moisturizing substances allows the product to remain on paint even up to 30 minutes.

**Available capacities:**

1000ml, 5l, 25l

**Product characteristics:**

- dissolves metallic dirt, including volatile rust
- in contact with metallic contaminants gives the effect of "bleeding"
- safe pH
- cleaning agent for paint and glass surfaces
- for non-contact applications
- ready to use
- safe for the surface if used in accordance with the manufacturer's recommendations

**Product characteristics:**

- for rubber elements - tires, rugs, etc.
- leaves the surface degreased and ready for dressing application
- safe for original wheel paint
- ready to use
- non-contact application
- alkaline pH
- safe for the surface to be cleaned if used in accordance with the manufacturer's recommendations,
- necessary before using RRC Tire Dressing

RRCUSTOMS

## TIRE&RUBBER CLEANER

A cleaning preparation for rubber elements (tires, rubber floor mats, etc.). It works instantly, penetrates dirt and effectively separates it from the surface. It is possible to get a "clean effect" without scrubbing.

**Available capacities:**

1000ml, 5l, 25l

RRCUSTOMS

## RUBBER SILICONE

Preparation for maintenance of rubber elements. Ideally suited for maintenance of seals in convertible vehicles. Prevents cracking and drying of seals.

**Product characteristics:**

- preservative for rubber elements
- makes surfaces moist and elastic
- causes a darkening effect
- creates a transparent layer for protection
- fully safe for rubber elements

#### Product characteristics:

- a multi-functional tire dressing
- protects the rubber against weather conditions
- it gives a deep, saturated color to the tires
- maintains and improves flexibility
- slows the aging process of tire
- when applied correctly Tire Dressing creates a protective coating that reduces dirt adhesion with a hydrophobic effect
- safe for the surface to be cleaned if used in accordance with the manufacturer's recommendations

An efficient silicone based Tire Dressing designed for tire regeneration and maintenance. Dressing protects against harmful weather conditions and road grime. It brings out and gives the deep and pure black effect, which stays on the surface of the tire for a few weeks.

#### Available capacities:

150ml, 1000ml, 5l

RACUSTOMS

## TIRE DRESSING

RACUSTOMS

## GLASS CLEANER

Glass Cleaner effectively removes dried dirt and greasy stains. The CrystalGloss formula makes the cleaned surface stay shiny and streak-free.

#### Available capacities:

1000ml, 5l

#### Product characteristics:

- cleaning product for windows
- effectively dissolves dirt from glass surfaces
- based on the CrystalGloss formula
- does not leave streaks, does not require polishing
- safe for the following surfaces; painted, glass, plastic, polished metals, chromed, anodised, powder coated, carbon fiber or vinyl film wrap.
- ready to use

#### Product characteristics:

- removes fresh mineral deposits
- effective in cleaning glass and paint surfaces
- recommended for maintaining ceramic and quartz coatings
- ready to use
- safe for the cleaned surface if used in accordance with the recommendations

Removes fresh mineral deposits from glass and painted surfaces. Safe for ceramic and wax coatings.

RACUSTOMS

## WATER SPOT REMOVER LIGHT

#### Available capacities:

1000ml, 5l

RRCUSTOMS

## WATER SPOT REMOVER LIQUID

Water Spot Remover Liquid for mineral deposits removal, ceramic coatings and waxes as well as invisible wipers from glass and painted surfaces. Due to the high concentration of active substances the product is dedicated to professional detailers.

**Available capacities:**  
150ml

### Product characteristics:

- removes mineral deposits
- recommended for cleaning glass and painted surfaces
- removes invisible wiper
- powerful acid-based preparation
- ready to use
- safe for the cleaned surface if used in accordance with the manufacturer's recommendations

### Product characteristics:

- removes mineral deposits
- recommended for cleaning glass and painted surfaces
- removes invisible wiper and protective coatings, i.e. ceramics, waxes
- gel consistency facilitates application
- powerful acid-based preparation
- ready to use
- safe for the cleaned surface if used in accordance with the manufacturer's recommendations

RRCUSTOMS

## WATER SPOT REMOVER GEL

Water Spot Remover Gel removes mineral deposits, ceramic coatings and waxes as well as an invisible wiper from glass and painted surfaces. Due to the high concentration of active substances it is dedicated to professional detailers. The gel consistency prevents the product from streaming, ensuring longer contact with the surface to be cleaned.

**Available capacities:**  
150ml

RRCUSTOMS

## INVISIBLE WIPER

Invisible wiper is a two-component system that is applied to impregnate the windshield. The preparation forms a hydrophobic coating. When driving in rain, the drops "slide" off the glass, which significantly improves visibility. In the winter, the coating reduces the deposition of frost on the glass. The system consists of the glass surface activator and the "invisible wiper" itself.

### Product characteristics:

- two component system for applying to car windcreens
- creates a coating with hydrophobic properties that effectively repels water
- at the speed of tens of kilometers an hour the product helps the raindrops to quickly slide off even faster
- the protective layer stays on the windshield for several months
- reduces the amount of dirt deposit on the glass
- safe for the surface if used in accordance with the recommendations
- **set contains: Activator 150ml, Invisible Wiper 150ml, 2 applicators**

**Product characteristics:**

- professional product for removing scratches and defects from glass and other glass surfaces
- helps to polish the surface to achieve a smooth effect
- formula based on cerium oxide
- used for mechanical polishing
- ready to use
- effective use requires high detailer's skills

RACUSTOMS

## GLASS POLISHING PASTE

Professional polishing paste for polishing and cleaning car windows and glass. Effective in removing scratches, stains from hard water or road dirt, restores gloss. The product is intended for detailers.

RACUSTOMS

## DEFROSTER

Defroster ensures quick and effective removal of frost from glass surfaces without scraping. It works instantly. Prevents re-freezing.

**Product characteristics:**

- for rapid removal of frost
- designed for car windows and mirrors
- safe for paint, wipers, seals and other external elements of the car
- effective even with strong frosts
- non-contact application
- ready to use

**Available capacities:**

1000ml, 5l

**Product characteristics:**

- dedicated to glass surfaces
- creates an invisible layer that absorbs water vapor caused by increased humidity and temperature difference inside and outside the vehicle
- the applied layer ensures the glass will not mist up due to weather conditions
- ready to use
- Anti-Fog is safe for the surface

RACUSTOMS

## ANTIFOG

A preparation called "anti-steam" creates a thin layer preventing water vapor from settling on the glass surface, without changing their transparency.

**Available capacities:**

150ml

RRCUSTOMS

## ODOR KILLER

is an advanced product for removing organic odors like: sweat, urine, vomit, milk, food, animal odors, smoke, etc. Unpleasant odors disappear immediately and the effect is long-lasting. "Odor Killer" is safe and easy to use. Will not leave stains or discolour surfaces. Recommended for car, home or office.

**Available capacities:**  
1000ml

### Product characteristics:

- Ready-to-use odor remover
- Removes organic odors: sweat, urine, vomit, milk, food, animal odors, smoke, etc.
- Recommended for use before cleaning upholstery
- Apply directly to the affected area
- Safe for upholstery and other fabrics
- Will not stain or discolour
- 

### Product characteristics:

- removes insect remains, bird droppings and other organic contaminants
- dedicated to painted, glass, plastic, painted, polished metals, chrome, anodized, powder-coated, carbon fiber or vinyl film wrap surfaces
- non-contact application
- ready to use
- used in accordance with the recommendations, safe for cleaned surfaces

RRCUSTOMS

## BUG REMOVER

An effective and safe way to remove the most persistent organic contaminants without the need of scrubbing.

**Available capacities:**  
1000ml, 5l

RRCUSTOMS

## TAR&GLUE REMOVER

Highly effective cleaning agent for painted surfaces. It is used to remove tar, asphalt, old dried adhesive and hardened resin from car paint.

**Available capacities:**  
1000ml, 5l, 25l

### Product characteristics:

- excellent cleaning agent for paint surfaces
- removes tar, resin, hardened adhesives or tree sap
- prepares surfaces for wax and other protective coatings
- non-contact application
- ready to use
- apply only to paint surfaces
- if used in accordance with the manufacturer's recommendations safe for the cleaned surface

#### Product characteristics:

- dedicated to proper inspection and paint correction
- use only on painted surfaces
- excellent in supporting surface preparation before applying waxes or protective coatings
- leaves a degreased and sterile surface
- safe for the cleaned surface if used in accordance with the manufacturer's recommendations
- ready to use

ARCUSTOMS

## WIPE OUT

Wipe Out is dedicated to cleaning paint surfaces. Removes residues of polishing paste and waxes, as well as adhesive residue and other contaminants. It evaporates quickly, does not leave streaks.

#### Available capacities:

1000ml, 5l, 25l

ARCUSTOMS

## TIRE PAINT

Tire Paint is a solution applied to tires to make them look clean and new. Specially formulated, high quality, stick-to-rubber paint gives the freshest looking tires. Brings back the deep matt black finish of the tires.

#### Product characteristics:

- Paint specifically designed for tires
- Retrieves the deep matt black appearance
- A product recommended for the used tire market
- Tire paint is not a tire dressing, it is not a car detailing product
- 

#### Available capacities:

1000ml, 5l, 25l

#### Product features:

- stopper of corrosion process
- penetrates rust and converts it into a chemically stable form
- the coating may be covered with a epoxy or acrylic primers
- efficient and easy to use

ARCUSTOMS

## RUST CONVERTER

Rust Converter- stopper of corrosion process. Deep penetrates rust and converts it into a chemically stable form. Produces a hard, durable coating that protects steel against weather conditions.

#### Available capacities:

150ml

RRCUSTOMS

## HARDCORE

Two-phase concentrate for the toughest dirt with versatile application. Removes all contamination from vehicles, machines and surfaces. Hardcore is the strongest preparation in the RRC Car Wash range!

### Product characteristics:

- strong, concentrated cleaning agent
- removes any dirt, including grease and oil
- two-phase operation - requires shaking before use
- concentrate - use appropriately diluted

- can be used as foam (recommended) or spray
- does not contain phosphates
- basic pH
- recommended for washing the body of trucks and passenger cars, trailers, containers, tarpaulins, chassis, painted aluminum parts and external engine parts
- effective for cleaning floors, terrazzo tiles and industrial machines

### Available capacities:

1000ml, 5l, 25l

### Product characteristics:

- efficient, concentrated cleaning agent
- universal - removes all dirt
- concentrate - use appropriately diluted
- alkaline pH recommended for cleaning internal and external car components
- effective in removing fixed hard to remove dirt in industry, construction, and households
- safe for the cleaned surface if used in accordance with the manufacturer's recommendations

RRCUSTOMS

## ALL PURPOSE CLEANER

All purpose concentrated cleaner. Effectively penetrates, breaks down and cleans dirt, grease, difficult stains and fixed dirt that other agents do not remove. APC binds dirt to create an easy-to-remove suspension.

### Available capacities:

1000ml, 5l, 25l

RRCUSTOMS

## LEATHER CLEANER SOFT

A delicate and effective cleaning agent that removes dirt and stains from smooth leather. The special formula was chosen for every day, safe care of leather surfaces. It neutralizes unpleasant odors such as cigarette smoke, human sweat, kitchen scents and more.

### Available capacities:

200ml, 1000ml, 5l

### Product characteristics:

- product dedicated to cleaning smooth car leather, furniture and leather goods
- recommended for regular surface cleaning
- ready to use with a foamer
- pH neutral
- safe for the cleaned surface if used in accordance with the manufacturer's recommendations
- the product should not be used on following types of leathers: nubuck, suede, velor, aniline

ALSO AVAILABLE AS KIT WITH LEATHER CONDITIONER!

#### Product characteristics:

- dedicated product for cleaning smooth car leathers, furniture and leather goods
- especially recommended for heavily soiled, bright upholstery
- ready to use with a foamer
- low alkaline pH
- safe for the cleaned surface if used in accordance with the manufacturer's recommendations
- the product should not be used on the following types of leather: nubuck, suede, velor, aniline leather

ARCUSTOMS

## LEATHER CLEANER STRONG

A strong and effective cleaning agent that removes dirt and stains from smooth leather. Strong formula is excellent with neglected leather and safely restores their original color. It neutralizes unpleasant odors such as cigarette smoke, human sweat, kitchen scents and more.

**Available capacities:**  
200ml, 1000ml, 5l

**ALSO AVAILABLE AS KIT WITH LEATHER CONDITIONER!**

ARCUSTOMS

## LEATHER CLEANER EXTREME

Potent cleaning preparation for heavily neglected leather. Special formula helps to effectively remove dirt and neutralize unpleasant odors such as cigarette smoke, human sweat and others. Dedicated to professional detailing studios and car washes. Leather Cleaner Extreme reduces the time and energy spent on heavy dirt removal.

**Available capacities:**  
1000ml, 5l

#### Product characteristics:

- heavy-duty professional preparation for cleaning smooth leathers in cars, furniture and leather goods
- ready to use with a foamer
- basic pH
- safe for the cleaned surface if used in accordance with the manufacturer's recommendations
- the product should not be used on open or rough leathers: nubuck, suede, velor, aniline leather

#### Product characteristics:

- professional conditioner for smooth leathers
- moisturizes, nourishes and restores leather elasticity
- creates a transparent layer that provides protection and prevents color fading
- UV protection reduce leather fading and breakdown caused by exposure to the sun
- ready to use
- safe for the cleaned surface if used in accordance with the manufacturer's recommendations
- the product should not be used on open or rough leathers: nubuck, suede, velor, aniline leather

ARCUSTOMS

## LEATHER CONDITIONER

Conditioner for leather surfaces. The product deeply penetrates the surface nourishing and restoring elasticity and resilience of leather. Formulated to prevent all leather surfaces from a dry and brittle condition. It will give a soft and smooth feeling to leather without damaging the surfaces.

**Available capacities:**  
150ml, 1000ml, 5l

RRCUSTOMS

## UPHOLSTERY CLEANER FOAMING

An effective, highly foaming concentrate dedicated to washing various types of fabrics. Especially recommended for removing dirt from car seats, rugs, floor coverings and carpets.

**Available capacities:**  
1000ml, 5l

### Product characteristics:

- dedicated preparation in the form of concentrate to help dissolve dirt on various types of material surfaces
- especially recommended for washing: rugs, armchairs, floor coverings
- not recommended for use when cleaning headlining, sides and other hard elements. For this type of surface, we recommend Upholstery Cleaner Low-Foaming
- safe for the cleaned surface if used in accordance with the recommendations

### Product characteristics:

- professional product in the form of concentrate to help dissolve dirt on various types of material surfaces
- especially recommended for washing: headliners, sides and other hard elements
- not recommended for cleaning rugs, armchairs, floor coverings. For this type of surface, we recommend Upholstery Cleaner Foaming
- safe for the cleaned surface if used in accordance with the manufacturer's recommendations

RRCUSTOMS

## UPHOLSTERY CLEANER LOW-FOAMING

An effective, low foaming concentrate designed for washing various types of fabrics. Especially recommended for removing dirt from hard surfaces such as: headliners, side panels, back of seats, leather-like materials, e.g. velor.

**Available capacities:**  
1000ml, 5l

RRCUSTOMS

## INTERIOR CLEANER

is a cleaner for car upholstery. It is ready to use, no need to dilute. Dedicated for cleaning a car seats, carpets, headliners, door panels, synthetic leather material; e. g. velour, fabric.

**Available capacities:**  
1000ml, 5l

### Product characteristics:

- ready-to-use upholstery cleaner
- for various types of car interior materials
- recommended for car seats, headliners, door panels, car floor coverings
- safe for textiles
- iceberg or Wild Berry scented

#### Product characteristics:

- professional product facilitating the removal of dirt from alcantara
- cleans and removes unpleasant odors of sweat or tobacco
- restores the surface provides longer service life
- ready to use
- alkaline pH
- safe for the cleaned surface if used in accordance with the manufacturer's recommendations

## RRCUSTOMS ALCANTARA CLEANER

This product is intended for cleaning alcantara. It helps to bring back the original colour and original suppleness of the material.

#### Available capacities:

200ml, 1000ml, 5l

## RRCUSTOMS PLASTIC CLEANER

Plastic Cleaner cleans and protects hard plastic surfaces. Prepares elements for RRC Interior Dressing application. Ready to use. No rinsing is required. Cleans efficiently, gives surfaces a crisp and original look. Fresh orange scented.

#### Available capacities:

150ml, 1000ml, 5l

#### Product characteristics:

- A gentle product for cleaning interior plastics (door, cockpit)
- Restores surface to factory fresh look
- Ready to use
- Do not rinse
- Fresh orange scented
- Safe for all intended surfaces when used in accordance with the manufacturer's recommendations
- Recommended before RRC Interior Dressing application

#### Product characteristics:

- A gentle product for cleaning external plastics
- Restores surface to fresh look
- Ready to use
- Gives the surface a hydrophobicity effect
- Safe for all intended surfaces when used in accordance with the manufacturer's recommendations

## RRCUSTOMS PLASTIC DRESSING

Silicon based formula for care of external car plastics. Restores original color. The visual effect persists several car washes. Dressing gives the surface a hydrophobic effect.

#### Dostępne pojemności:

150ml, 1000ml

RRCUSTOMS

## INTERIOR DRESSING

Dedicated to protecting and restoring colour and depth to interior plastic, rubber and vinyl elements. Perfect for regular care of glossy and matte surfaces.

### Available capacities:

150ml, 1000ml, 5l

### Product characteristics:

- Gentle formula for refreshing and protecting interior plastics
- Creates an anti-static barrier on the surface
- Provides excellent protection from harmful UV rays
- Wild berry scent
- Thick consistency
- Safe for all intended surfaces when used accordingly with the manufacturer's recommendations

### Product characteristics:

- A gentle product for cleaning interior plastics
- Safe pH
- Brings out the depth of colour
- Restores surface to factory fresh look
- Leaves an anti-static protective layer on the surface
- Wild berry scent
- Safe for all intended surfaces when used in accordance with the manufacturer's recommendations

RRCUSTOMS

## INTERIOR DETAILER

Cleans and protects plastic surfaces quickly and easily. It gives interior surfaces a crisp and original look. This unique formula repels dirt, protects plastics from excessive dust buildup and leaves the surface resistant to fingerprints.

### Available capacities:

150ml, 1000ml, 5l

RRCUSTOMS

## SCREEN WASH

Car windshield washer fluid, premium winter edition. Based on high-quality ethanol alcohol. Removes road sediments, salt, prevents dirt from sticking to the glass surface. Does not leave streaks or stains. Does not freeze up to -20°C. Safe for paint or seals. Smell: mango & passion fruit. Does not contain methanol.

### Available capacities:

4000 ml

### Product features:

- car windshield washer fluid, premium winter edition
- doesn't freeze to -20 C
- based on high-quality ethanol alcohol
- methanol free
- NANO technology
- does not damage seals, leaves no streaks or stains
- smell: mango & passion fruit

## ARCUSTOMS ISOPROPYLALCOHOL

A professional chemical preparation from the group of organic alcohols, contains 99% alcohol. It is often used in paint restoration in order to remove the remains of polishing pastes. It evaporates quickly, making it a great solvent.

**Available capacities: 1000ml, 5l, 25l**

## ARCUSTOMS ADHESIVEREMOVER

Ready to use universal preparation with a pleasant aroma for cleaning and surface preparation before painting, wrapping, gluing or other processing of elements. Ideal for removing residual glue left after removal of the vinyl film from the surface of the vehicle, self-adhesive films, stickers or labels.

**Available capacities: 150ml, 1000ml, 5l**

## ARCUSTOMS TINTGEL

Professional liquid in the form of a thick concentrate for wet film application. Perfectly degreases the surface. It does not leave streaks, it evaporates quickly. Dosage: 6-10 ml for 1l of water.

**Available capacities: 150ml, 500ml, 1000ml, 5l**

## ARCUSTOMS SURFACECLEANER

A universal ready to use alcohol based cleaner with a pleasant aroma. It removes all contaminants and degreases the surface. It allows the removal of various types of residues during a single application.

# CAR SCENTS

New line of RRCustoms car scents is over 50 intensive, aromatic compositions. Every bottle label shows a piece of RR Customs history in an unconventional, comicbook style.

We created new scents by mixing various flavours in very special combinations. Everyone will find something to fit his taste. Every RRC Scents comes in the form of bottle with sprayer.

There is also car mirror hanger included to every single one. The intensity of aroma depends mostly on how much liquid is applied. We like to experiment - you can find a lot of exotic flavours like: musk, white tea, bamboo, mangosteen or acai berries. If you go oldschool, we recommend the aroma of bubble gum, orange, cherry, mint and more.

**So, what's your favorite scent?**
